FOR IMMEDIATE RELEASE

ATTO 360 Networking Software Boosts Network Performance for Dell OneFS PowerScale Storage Systems

ATTO Ethernet adapters with ATTO 360 Networking can increase the efficiency of Dell PowerScale™ nodes by up to 30% or more

Amherst, NY (October 3, 2024) – [ATTO Technology, Inc.](#), a global leader in network and storage connectivity solutions, has launched [ATTO 360 Networking™ Software](#), an all-purpose application for Ethernet network optimization and troubleshooting with custom profiles for Dell OneFS™ PowerScale storage systems.

ATTO 360 Networking features advanced tuning tools that can significantly boost performance by up to 30% through pre-configured profiles for Windows® and Linux® and up to 60% for macOS®. Its user-friendly interface simplifies setup and troubleshooting, reducing downtime and ensuring optimal system performance.

When used with [ATTO Ethernet products](#), ATTO 360 Networking eliminates the need for complex network configuration. ATTO 360 Networking currently includes eight custom profiles for Dell OneFS PowerScale storage systems. These profiles were created by ATTO and Dell to provide the best performance and file-sharing experience for clients connecting to PowerScale storage systems.

"ATTO 360 Networking Software is a game-changer for organizations using Dell OneFS PowerScale storage systems. By optimizing network performance and simplifying setup, we're helping PowerScale users maximize their storage investments and achieve unprecedented efficiency," said Tim Klein, President and CEO of ATTO Technology. "Our collaboration with Dell has resulted in a truly powerful solution that delivers unmatched value."

ATTO 360 Networking Software includes remote functionality that allows for the setup and management of ATTO Ethernet devices across a network from a single location. It features monitoring and analytics tools that keep track of the network and its components via detailed yet intuitive dashboards and highlighted menu options. ATTO Expert™ is a built-in advisor that identifies and suggests solutions for issues, even predicting and helping to avoid potential problems before they occur.

ABOUT ATTO

For over 35 years ATTO Technology, Inc. has been a global technology leader specializing in network and storage connectivity and infrastructure solutions for the most data-intensive computing environments. ATTO works with customers and partners to deliver end-to-end solutions to better store, manage and deliver data, often as an extension of their design teams. ATTO manufactures host adapters, SmartNICs, storage appliances and controllers, intelligent bridges, Thunderbolt™ adapters, and software. ATTO solutions provide the highest level of storage connectivity performance for Fibre Channel, SAS, SATA, iSCSI, Ethernet, NVMe and Thunderbolt. ATTO is the Power Behind the Storage.
